

The Pizza of my Happiness- Writing and Speaking Activity (hobbies)

Teacher's notes

This is a writing/ speaking/ listening activity for students (or you can divide the activity at any point).

Adapted from original source: <http://busyteacher.org/9336-the-pizza-of-my-happiness.html>

Procedure:

Give each student a copy of the pizza sheet. Check that they understand each of the phrases on the sheet.

Tell them they have to write their answers on the pizza, by dividing up the pizza. The more important the activity is to them, the bigger the slice should be. The things they don't like should go on the crust. Then, using the phrases on the sheet, they share their "pizza of happiness" with partners.

Alternative version:

Add the answers (in Chinese characters) to the questions below, inside your pizza. Show your pizza to a partner/ small group, they have to make statements to guess what your likes/ dislikes are.

NB Students can also carry this out for homework, and bring their pizza in next lesson/ post online in their classroom.
